

# METERING TURNKEY SOLUTIONS

## Pumps in Protective Cabinets

## PROTECT YOUR OPERATORS FROM HAZARDOUS PRODUCTS

Milton Roy offers pre-engineered, self contained secure enclosures: a safe and ready-to-use solution for your dosing processes. By following industry best practices and NPSH guidelines, you can avoid the risks associated with piping connections errors and accidental handling.

## Benefits

- Pre-configured compact cabinets
- Up to 2 metering pumps (LMI, Proteus, GA, and GM)
- Connect only the hydraulic and electrical systems to get started
- Lockable door and transparent windows
- Protection against leaks and splashes
- Reliable chemical dosing
- UV and corrosion-resistant HDPE enclosure
- Lightweight for installation on tank, wall or stand
- Various options

## Guaranteed Reliability

Made in Europe, these enclosures are **robust, easy to install** and **simple to maintain**.

Ideal for applications in **water treatment, fertilizers, and chemical processing**, each multi-configuration unit delivers safe and reliable dosing that protects people, processes, and the environment.
