See a PECO Energy Assessment in action.

Limited supply per household and where applicable. Certain restrictions apply. You must be a PECO electric customer to participate. One Energy Assessment per residence, per year.

We're here to help

We share customers' frustrations with rising energy costs. That's why we're making help available through the extended and expanded PECO Customer Relief Fund (CRF) and Low-Income Home Energy Assistance Program (LIHEAP) grant programs.

Customer Relief Fund Expanded: Apply for a $750 Grant

CRF was recently expanded to help more customers manage the cost of energy, which continues to rise due to significant weather and higher demand. In addition to increased funding, more customers will now be eligible to receive the one-time grant as new eligibility requirements have been introduced.

LIHEAP: Get up to $1,000 to pay you energy bill

LIHEAP is also available to some qualifying customers. Get up to $1,000 as a cash grant to pay your PECO energy bill, which means you'll never have to pay it back. Residents must re-apply each year with your household income. **Apply now: LIHEAP closes April 10**.

Learn about CRF and see if you qualify at **peco.com/relief**.

For LIHEAP details, visit **peco.com/LIHEAP** or call 800-34-HELP-4.

Electric and Gas Meter Safety

A clear path equals a safer home or business.

Keep electric and natural gas meters (whether indoor or outdoor) clear of debris and clutter.

NEVER enclose meters with drywall, fencing or other materials.

ALWAYS maintain three feet of unobstructed space around the meter—this includes vegetation like trees and bushes.

Blocked meters can delay emergency response.

For more tips on Electric and Natural Gas Safety, visit **peco.com/safety**.

Additional tips:

- Use caution when performing work or moving vehicles and equipment around meters or piping.
- During winter storms:
  - Keep exhaust vents for natural gas appliances like water heaters, furnaces and fireplaces clear of snow and ice to prevent buildup of carbon monoxide.
  - *Gently* clear snow and ice from the area around a natural gas meter.
- Contact PECO immediately at 800-494-4000 to report suspected damage or signs of deterioration to meters or piping.

Serving Customers

PECO Energy Assistance Programs

PECO offers many programs designed to make energy affordable and help customers manage their bills, including:

Customer Assistance Program (CAP – PIPP)
peco.com/CAP

Matching Energy Assistance Fund (MEAF)
peco.com/MEAF

PECO's Assistance Finder
peco.com/HELP

Schedule a Virtual Assistance Session to learn more about applying for grants and other assistance
peco.com/HELP

PECO connects approximately 140,000 customers each year with energy assistance programs, providing more than $170 million in support.

Learn about PECO's comprehensive energy assistance and bill support programs. Visit **peco.com/BillSupport**.

Your energy. Your choice.

PECO's Price to Compare (PTC) is the price you can use to evaluate offers from competitive energy suppliers. PECO's charges are passed directly to you at the exact cost we pay.

The PTC changes quarterly for Gas, as market prices change. You'll see this change reflected in your April bill. You can find your PTC in the Message Center on your bill or at **peco.com/choice**.

We encourage you to monitor your energy usage as seasons change and take advantage of PECO's energy efficiency programs.

Learn more about PECO's programs that can help you save energy and money. Visit **peco.com/WaysToSave**.
