

# CHEMFLO 4 Pedestal

## 2" x 1-1/2" End Suction Centrifugal Pump with Enclosed Impeller

Made with high quality investment cast 316 stainless steel components, the ChemFlo® series of pumps are designed to be applied in a wide range of pumping applications where stainless steel is required.

ChemFlo® 4 pumps utilize a semi-open impeller design to allow for passage of larger solid sizes and a totally enclosed impeller to meet high efficiency standards. Several seal options are available in addition to the standard type 2100 carbon / ceramic / Viton mechanical seal.

All wetted components are 316 investment cast stainless steel providing superior corrosion resistance when pumping chemical compounds. The Chemflo® 4 pedestal uses a pump end (Pumpak) design that is interchangeable with 56C or 145TC electric motors. If ordering a pumpak with a 145TC please note that the electric motor must have a base.

### SPECIFICATIONS:

<b>Suction / Discharge</b>	2" x 1-1/2" NPT
<b>Materials of Construction</b>	316 Stainless Steel Investment Cast
<b>Flow</b>	180 GPM (41 m <sup>3</sup> /h)
<b>Head Feet</b>	Up to 80' (24.4 m)
<b>Impeller</b>	4.50" (114.3 mm) semi-open, cast 316 stainless steel
<b>Seal</b>	Carbon/Ceramic/Viton Type 2100, Special Seals Available upon Request
<b>Drive Options</b>	Close Coupled 56C Close Coupled 145TC Hydraulic Drive Pedestal PumPak® (without motor)

### Application:

- Commercial
- Industrial
- Marine
