

An Ingersoll Rand Business

Pumps for Warewash Applications

MP Pumps centrifugal pumps can be found in various warewash applications in the food service industry in commercial dish washers. These pumps help to insure efficient and thorough washing and rinsing of warewash products.

WAREWASH - WASH AND RINSE

In the food and beverage industry warewash is an important step of cleaning and serving operations. Our pumps work to accomplish an efficient and sanitary process. The high flow rate that is generated during the wash process helps get products cleaner faster. Our products work well in warewash dishwasher types including glass washers, flight, under counter, single tank, and pots, pans, trays and others.

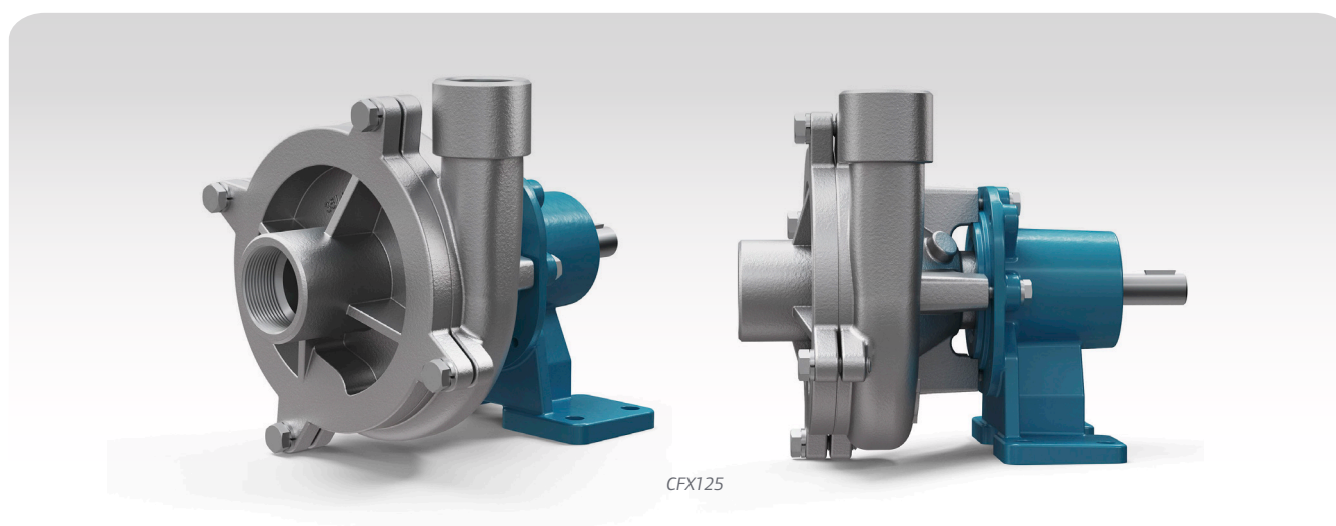

Our products are reliable, dependable, and efficient. We stand behind our products so you can stand behind yours. Our highly trained and experienced research staff works with you through concept to development all the way to production. We partner with you to create state of the art designed and engineered products with an emphasis on quality and durability. When you trust MP Pumps to be part of your products, our promise is to make consistently high quality pumps that get the job done and take the worry out of your pumping process.

**DON'T
JUST GO
WITH
THE FLOW...
CREATE IT!**

Contact MP Pumps today to be your warewash pump partner. We offer a wide variety of products available in larger flows and heads upon request.

MP Pump Warewash Circulators

Warewash Circulation Pumps

- Flow ranging from 75 GPM
- Pressure ranging to 85 ft of head
- End Suction (Flooded suction – below the fluid)
- Construction: 316 Stainless Steel
- Available in non-metallic polypropylene construction
- Close coupled to electric motor
1/10 - 1-1/2 HP
- Larger flows and heads are available upon

MODEL	SUCTION	DISCHARGE	MAX TDH FT (M)	MAX FLOW GPM (LPM)	HP
CFX50	1/2" NPT / 1" HOSE	1/2" NPT / 1" HOSE	16 (4.87)	12 (45.42)	1/10
CFX75	3/4" NPT	3/4" NPT	28 (8.53)	25 (7.57)	1/6
CFX75H	1" HOSE	1" HOSE	28 (8.53)	25 (7.57)	1/6
