

2CT-3

3" x 3" Self Priming Centrifugal Trash Pump

The 2CT-3 Self-Priming Centrifugal Trash Pump is built for heavy-duty performance, combining strength, efficiency, and low maintenance requirements. Designed for rigorous industrial and OEM applications, this 3" x 3" pump delivers reliable operation even when handling fluids with solids. Its self-priming feature, durable cast iron body, and flow capacity of up to 400 GPM (90.8 m³/h) make it ideal for managing wastewater, debris, and slurry.

A back pull-out design streamlines servicing, while the front cleanout access allows quick removal of accumulated solids—minimizing downtime. Compatible with standard NEMA motor frames such as 184TC and 215TC, the pump is available in both close-coupled and pedestal-mounted versions to fit diverse installation needs. Whether used in industrial processing, commercial plumbing, or equipment manufacturing, the 2CT-3 ensures dependable performance and long-lasting durability.

SPECIFICATIONS:

Suction / Discharge	3" x 3" NPT
Materials of Construction	Cast iron
Flow	Up to 400 GPM (90.8 m ³ /h)
Head Feet	Up to 125' (38 m)
Impeller	5.82" (147.83 mm) ductile iron
Motor	Up to 10 HP (7.35 kW)
Drive Options	Close coupled 145TC Close coupled 184TC Close coupled 215TC (Hy-Speed Version Only) Pedestal PumPAK® (without motor)
Seal	Standard - carbon / ceramic / Viton
Max Solid Size	1.5" (38.1 mm)
Drive Sleeve	304 Stainless Steel
Features	<ul style="list-style-type: none"> • Back pull out design • Removeable trash cleanout • Will pass up to 1.5" (38.1 mm) solids

Application:

- Commercial
- Industrial
- OEM
