Non-sterile training

The Science of Pharmaceutical Compounding[®]: Non-Sterile Training*

Early Bird \$2495 / Regular Price \$3395**

We combine a live virtual or in-person seminar with practice-based laboratory training to provide pharmacists and technicians with a well-rounded, comprehensive, practical, and applicable understanding of non-sterile compounding.

Seminar – live virtual or in-person (12 hours)

Review standards of practice, business opportunities, financial management, compounding processes, pharmacy calculations, quality control, and more.

Lab training (12 hours)

Hands-on experience compounding six common non-sterile dosage forms, applying best practices in compounding techniques, technology application, SOP documentation, quality control, and more.

In-person seminar & lab – Sydney	May 23-25 Nov 21-23
Live virtual seminar / In-person lab – Sydney	Feb 8-9 / Feb 21-22 or Feb 8-9 / Feb 22-23 Aug 2-3 / Aug 15-16 or Aug 2-3 / Aug 16-17
