

Food

- acesulfame k
- antibiotics
- aspartame
- azodicarbonamide
- benzoyl peroxide
- bht (butylated hydroxytoluene)
- brominated vegetable oil
- calcium peroxide
- calcium sorbate
- carmine
- cyclamates
- dimethylamylamine (DMAA)
- disodium calcium EDTA
- disodium inosinate
- ester gums
- ethylenediaminetetraacetic acid (EDTA)
- glycerol ester of wood rosin
- hydrogenated oils/fats
- lactylated esters of mono- and diglycerides (acceptable if derived from plants)
- methylparaben
- monosodium glutamate (MSG)*
- acetylated esters of mono- and diglycerides
- artificial colors (acceptable if exempt colors*)
- astaxanthin (acceptable in supplements if natural)
- bentonite (acceptable in supplements and wine)
- benzyl alcohol
- bleached flour
- calcium bromate
- calcium propionate
- calcium stearoyl-2-lactylate
- certified colors (synthetic)
- cysteine
- dimethylpolysiloxane
- disodium dihydrogen EDTA
- disodium succinate
- ethyl vanillin
- ethoxyquin
- hexa-, hepta- and octa-esters of sucrose
- hydroxypropyl guar gum
- methyl silicon
- microparticulated whey protein derived fat substitute
- neotame
- ammonium chloride
- artificial flavors
- autolyzed yeast extract/ yeast extract
- benzoates
- bha (butylated hydroxyanisole)
- bromated flour
- calcium disodium EDTA
- calcium saccharin
- caprocapylobehenin
- cochineal
- datem (diacetyl tartaric and fatty acid esters of mono and diglycerides)
- dioctyl sodium sulfosuccinate (DSS)
- disodium guanylate (GMP)
- erythorbic acid
- ethylene oxide
- fd & c colors (food & dye)
- high fructose corn syrup
- imp (disodium inosinate)
- methylene chloride
- monoglycerides (acceptable if derived from plants)
- nitrates/ nitrites (synthetic)

Food

- olestra
- polydextrose
- potassium bromate
- potassium nitrate/potassium nitrite
- propyl gallate
- saccharin
- sodium aluminum sulfate
- sodium diacetate
- sodium metabisulfite
- sodium stearoyl-lactylate
- sorbic acid
- sucrose polyester
- tbhq (tertiary butylhydroquinone)
- vanillin (acceptable if naturally derived)
- oxystearin
- potassium benzoate
- potassium hydroxide
- potassium sorbate
- propylene oxide
- simplesse
- sodium benzoate
- sodium ferrocyanide
- sodium nitrate
- sodium sulfite
- sucralose
- sulfites (sulfur dioxide), except in wine, mead ciders
- tetrasodium EDTA
- partially hydrogenated oil
- potassium bisulfite
- potassium metabisulfite
- propionates
- propylparaben
- sodium aluminum phosphate
- sodium bisulfite
- sodium glutamate
- sodium stearoyl-2-lactylate
- solvent extracted oils, as standalone, single-ingredient oils (except grapeseed)
- sucroglycerides
- synthetic sodium propionate
- trans fatty acids (synthetic)
