

BGE Service Application Guidelines for Customers – *Street Lighting & Private Area Lighting Installation Projects*

Understanding Street Lighting & Private Area Lighting Services

Before you apply for BGE Street Lighting and/or Private Area Lighting installation projects, the first step is to gain a better understanding about the type of lighting installations that BGE provides and how they work. Following are examples of projects that qualify for service as well as key words and descriptions to which you can refer to in completing your service application:

<u>Project Examples</u>	<u>Project Key Words & Definitions</u>
Dedicated and Non-dedicated Streets	Street Lighting BGE unmetered street lighting service supplied from overhead or underground facilities on dedicated public streets and roads where required by City, Town, County, or other Municipalities and Public Agencies.
Commercial or Residential property	Private Area Lighting BGE unmetered outdoor area lighting of private property supplied from overhead or underground facilities (i.e., parking lots, HOA community property, and non-dedicated private streets).
Parking Lots	Underground or Overhead Two possible types of utility maintained, unmetered electrical services typically specified to energize an outdoor lighting system.
Apartments or Condominiums	
Relocation or upgrading of existing BGE outdoor lighting	

Requirements of the Service Application

All requests for street lighting must be filed and approved with your local municipality prior to contacting BGE with this formal request. Once approved, the municipality and/or development agency will then file a request with BGE to proceed with the street lighting project.

In order for BGE to meet your requested installation date, we strongly recommend that you submit the service application and any additional required information as early as possible in your planning process. Please print clearly or type the application. It is very important that you complete **all** of the requested information on this application. Omitting information may cause unnecessary delay of your project. Applications are subject to cancellation if you do not respond to requests for information.

It is essential that you enter your company's name accurately on the service application. When you are asked for the name of your company, please provide the legal name as it appears on file with the State of Maryland Attorney General's Office. Your company's legal name will also appear on your Charter or Articles of Incorporation.

Additional Information Required with the Service Application

To ensure the proper processing of your service application, it is necessary to include some additional documentation in regard to your project. Below is a list of items you will need to include with your application. Please include **all** additional documentation with your application where applicable.

- Additional Documentation
 - A scaled site plan with the following information included:
 - Minimum scale of 1" = 50'
 - All on-site utilities (private and/or public)
 - All structures and limits of paving outside the right of way (i.e., buildings, garages, lead walks, trails, etc.)
 - Road right of way (including limits of pavement, curb, sidewalk, driveway aprons, and street trees)
 - Site boundary, lot lines, lot numbers, and lot address
 - Street names
 - Proposed light locations
 - Municipality approved street light plan
 - Letter of transmittal for approved street light plan or Request for Proposal
 - Pole and light numbers for relocation, change, upgrade, or removal of BGE outdoor lighting facilities:
 - Include all wood pole metal tag(s) and/or yellow light location tag(s) on your required site plan (clearly marked with notations of what you want done), or describe the work to be done in the "scope of work" portion (***under Q1a. Project Name***) of the application.
 - Sketch with notations of project:
 - Please provide a site plan, if you are filling out an application for BGE lights to be installed, removed, or replaced. If a site plan is not obtainable, please use the sketch area (***located on last page of the application***) indicating the requested lighting layout. The drawing should include the same basic information as a scaled site plan (***i.e., street names, structures, proposed light locations or changes, etc.***).

Submitting your Service Application

Please package all additional documentation with your application and mail to the address listed below. You may submit a hard copy of the site plan, or provide a disc in one of the following two formats; Micro station (all releases), or AutoCAD (releases prior to Version 14).

Ways to submit a service application:

Email service application and complete set of plans to

SitePlans@bge.com

Fax service application and complete set of plans to:

443-213-6574

Mail service application and complete set of plans to:

BGE - Customer Planning Department

Service Application Unit

1068 N. Front Street, Room 501

PO Box 1475

Baltimore, MD 21203-1475
