

How many containers do you need?

Use this chart to estimate the number of containers your move will require

HOME SIZE /SQFT	Less than 400 sq ft	600 sq ft	800 sqft	1000 sqft	1200 sqft	1600 sqft	2000 sqft	2500 sqft	3000 sqft	Greater than 3000 sqft
LIGHTLY FURNISHED	One 7'	One 16'	One 16'	One 16'	One 16'	One 16' One 7'	Two 16'	Two 16' One 7'	Three 16'	Approximately One 16' per 1,000 sq ft
MODERATELY FURNISHED	One 7'	One 16'	One 16'	One 16'	One 16' One 7'	Two 16'	Two 16' One 7'	Three 16'		
HEAVILY FURNISHED	One 7'	One 16'	One 16'	One 16' One 7'	One 16' One 7'	Two 16'	Two 16' One 7'	Three 16'	Three 16' One 7'	

Packing and Loading Pro Tips:

Couches less than 6.5 feet will fit in a 7 foot container

Items that will not fit in a 7' Container:

King sized mattress or bed frame
Sectional Couch

Remember that this container matrix is an estimate only. Larger items and how efficiently the container is loaded will significantly impact the required container size and quantity of containers. When considering square footage, remember to include any area that has items you'll be loading into the container, such as your patio, basement, garage, and attic. Please note that the 12-foot container is for in-town moving only. For longer distance moves, select the 16 or 7-foot containers.
