Liftchain[®] Xtrem[™] Series Air Chain Hoists

Global Field Trial Insights

Customers from around the world participated in early field trials of Liftchain[®] Xtrem[™] and shared their experiences and initial feedback.

PEOPLE. POWER. PROGRESS.

BUILT FOR A HIGHER STANDARD

“

I liked the **quiet operation, compact design and precise low-speed lifting**, which significantly improves the execution of high precision projects.

INDUSTRY

Shipbuilding &
ship repair

CUSTOMER PROFILE

One of the largest shipyards in the Mediterranean, serving the maritime, energy and defense sectors.

3 ton Liftchain® Xtrem™ hoist being evaluated at a major U.S. rental company.

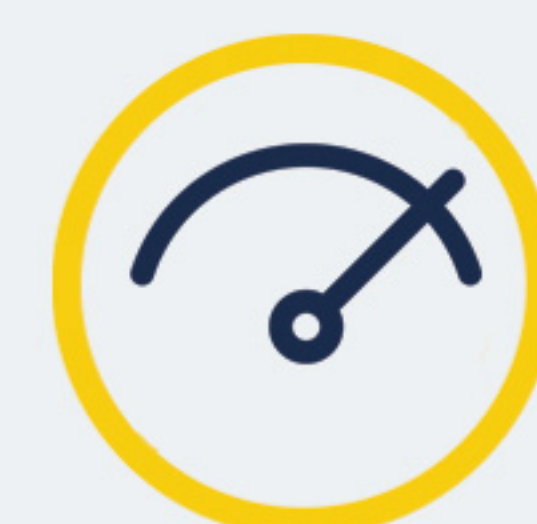

The integrated lubricator is a **significant improvement**. Unlike conventional hoists, which require disassembly to replace the grease packing, Liftchain® Xtrem™ only requires inspection, lubricant refilling and load testing between rental cycles. This **simplifies maintenance** and **improves fleet readiness**.

CUSTOMER PROFILE

One of North America's leading equipment rental companies, supporting construction, industrial maintenance and infrastructure projects.

GLOBAL FIELD TRIAL INSIGHTS

“

The pneumatic hoist demonstrated **safe and reliable performance** throughout the trial. Its smooth operation, integrated lubrication system and compact design make it well suited for shipbuilding applications. Based on the successful evaluation, we recommend it for deployment.

Leading Chinese Shipbuilding Company

KEY BENEFITS REPORTED

SAFE & RELIABLE

The pull cord control and robust design ensure safe, reliable performance.

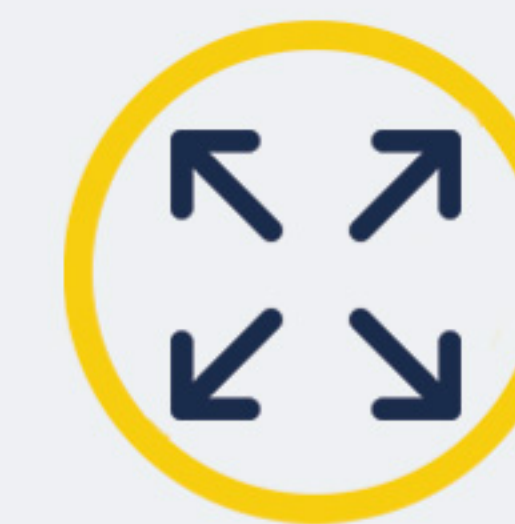

EFFICIENT & CONVENIENT

The lifting speed meets on site requirements, while the integrated lubrication system simplifies maintenance and improves efficiency.

SPACE ADAPTABLE

The compact design is ideal for narrow and confined spaces.

DESIGNED TO MAXIMISE UPTIME

Built in air filtration and a robust rotary valve help ensure reliable operation in harsh environments, while the 1 to 25 ton range provides a solution for a wide variety of lifting applications.
