

LIFTCHAIN AIR AND HYDRAULIC HOISTS

1.5-100 tons

WHEN TOUGH JUST ISN'T ENOUGH

Liftchain Air Hoists

Since 1924, Ingersoll Rand® has built extremely durable and reliable winches and hoists. Designed with premium features and built using rugged cast iron and steel, Ingersoll Rand doesn't take shortcuts and never uses inferior components. Ingersoll Rand Liftchain Hoists are the most versatile heavy-lifting hoists in the Ingersoll Rand hoist line. They incorporate all the best features learned from decades of experience into a compact, modular frame. Available with 4 different suspension options in either air or hydraulic models, Ingersoll Rand hoists are the gold standard. They are often copied but never equaled. Trusted by oilmen, shore workers, miners and heavy construction crews around the globe, you can count on Ingersoll Rand Liftchain hoists to get the job done.

LIFTCHAIN HOIST FEATURES:

- Rugged, all steel construction in a compact design for durability in all environments.
- Grade 80, corrosion resistant load chain with a 5:1 design factor
- Designed for Explosive environments. ATEX Zone 2 standard (ATEX Zone 1 package optional)
- Gear type air motor with minimal moving parts is virtually maintenance free
- Hydraulic motor offers high torque and high efficiency at low motor speed
- Fully enclosed automatic multi disc brake for corrosion protection
- Overload protection device ensures safe operation
- Upper and lower limit switches integrated in the hoist body for better protection
- Ball bearing mounted bottom hook for easier and smoother turning under load

LIFTCHAIN AIR HOISTS

1.5-100 tons

Ingersoll Rand® Liftchain Hoists are the most advanced heavy-lifting hoists in the Ingersoll Rand hoist line. They incorporate all the best features we've developed from our decades of experience into a compact, modular frame. Hook Mount versions offer maximum versatility to place them where you need them. Count on Liftchain hook mount hoists to get the job done.

ALL STEEL CONSTRUCTION
for better durability

PNEUMATIC
gear motor

CORROSION RESISTANT
grade 80 load chain

WATER DRAIN HOLES
to prevent water from being
trapped in the block and
corroding

**FULLY ENCLOSED, AUTOMATIC
MULTI DISC BRAKE** for corrosion
resistance

**INTEGRATED UPPER AND
LOWER LIMIT SWITCHES**
for better protection

**BALL BEARING MOUNTED
BOTTOM HOOK** for easier,
smoother turning under load

LIFTCHAIN HYDRAULIC HOISTS

6-100 ton

Ingersoll Rand® Liftchain Hoists are the most advanced heavy-lifting hoists in the Ingersoll Rand hoist line. They incorporate all the best features we've developed from our decades of experience into a compact, modular frame. Hook Mount versions offer maximum versatility to place them where you need them. Count on Liftchain hook mount hoists to get the job done.

The LCH Series can be provided with control systems such as:

- Hydraulic control console for hoist only, hoist/trolley combination, or for complete lifting system (e.g. systems with 2 or 4 hoist trolley combination).
- Electro-hydraulic control console, also available for all types of configurations
- Hydraulic joystick control from 6 ton models with motorized trolley.
- Ergonomic pendant control

LIFTCHAIN SUSPENSION OPTIONS

Ingersoll Rand® Liftchain Hoists are available with 4 different suspensions and include plain, geared or motorized trolley options for maximum flexibility. With a modular design and compact frame, there is an Ingersoll Rand Liftchain hoist to help you get your job done.

Hook Mounted

Standard Trolley Mounted

Low Headroom Trolley

Ultra-Low Headroom Trolley

A VARIETY OF OPTIONS

Galvanized Steel Chain Container

Capture load chain and prevent it from interfering with the load, control cords, or other objects.

Clevis & Shackle Attachment

Provides secure attachment for rope, slings or other types of equipment with built-in attachment points.

Airline Accessories

High air quality is essential for reliable operation and full service life of air hoists. Airline accessories designed for hoists include filters, regulators and lubricators.

Rack And Pinion Drives

These drives are often used on floating installations or vessels. The positive drive design prevents sliding on the beam and provides precise travel positioning during operation.

Spark and Corrosion Resistant Packages

Construction materials are selected to match ATEX requirements. ATEX Zone 1 Spark Resistant models will have the ATEX marking EX II 2 GD c IIB 135°C.

Traceability Packages

Traceability packages are available to comply with local regulations and standards. Packages available in hard copy or electronic format.

GLOBAL PARTS AND SERVICES

Ingersoll Rand® hoists and winches are built to last in even the harshest conditions. We are committed to helping you keep your operation running, no matter where your facility is located. We offer a full range of parts and accessories. Plus Ingersoll Rand's global network of factory trained and authorized technicians can install, test and maintain and repair any hoist or winch.

Service capabilities include:

- Load test and recertifications
- System inspections
- Equipment refurbishments
- Installation and start-up assistance
- Inspector and operator training
- Service and repair

A TRADITION OF PROVEN RELIABILITY, EFFICIENCY AND PRODUCTIVITY

No matter where you are located, Ingersoll Rand is committed to serving and providing you with the necessary information with regard to our products and services. Our world-wide network of distributors, certified technicians and engineers are a telephone call away — ready to support you with innovative and cost-effective solutions that will keep your business running at peak performance.

SPECIAL ORDERS

A significant portion of our business is providing customized solutions for specific applications. We recognize that not all jobs are created equal and that the most cost-effective solutions may not be in an off-the-shelf item. We've designed and manufactured winches and hoists for applications as simple as moving bags of lettuce, to as intricate as installing critical payloads on space vehicles, including high capacity loads 100 tons and above.

- Design for custom capacities
- Custom control systems
- Custom product modifications
- Witness testing and complete certification to any global standard
- Full data package with CAD drawings
- Dedicated project management for your project from conception to delivery
- Onsite services available including presale and evaluation

Ingersoll Rand (NYSE:IR), driven by an entrepreneurial spirit and ownership mindset, is dedicated to helping make life better for our employees, customers and communities. Customers lean on us for our technology-driven excellence in mission-critical flow creation and industrial solutions across 40+ respected brands where our products and services excel in the most complex and harsh conditions. Our employees develop customers for life through their daily commitment to expertise, productivity and efficiency.
