IQ-RB+ Blower Package

Elevated Enhancements Built on Legacy

Proven performance with enhanced package features, the IQ-RB+ is the perfect solution for major industries including pneumatic conveying, wastewater aeration, dairy, and more. For reliable delivery of clean, oil-free air, look no further than the IQ-RB+.

Smarter Controls

Integrated Governor Controller with iConn for enhanced connectivity and controls. User-friendly touchscreen navigation displays real-time performance data and diagnostics. Never miss an update, with remote monitoring and system alarms your system will alert you before critical shutdowns occur.

Maintenance Friendly Design

- Compact sound attenuating enclosure with rigid base supports easy transport.
- View data trends for key performance metrics to ensure your system is performing optimally.
- Simplify maintenance by easily viewing service intervals for consumables and hours to next service directly from the controller screen.

Factory Assembled, Factory Warrantied

Backed by Gardner Denver, each IQ-RB+ unit is designed and tested to meet rigorous performance and quality standards. With minimal startup required, each package is delivered ready for quick installation.

Performance Specifications

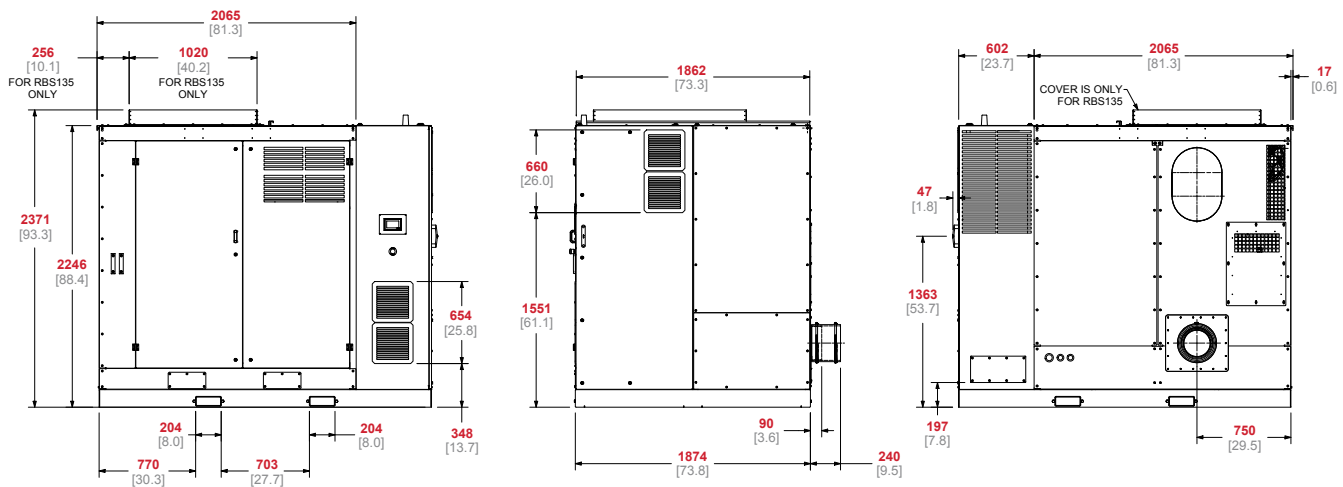

- Max Pressure to 14.5 PSI
- Max Vacuum to 15 inHg
- 60-300 HP
- 1400-3400 CFM
