

DUMP TRUCK SAFETY IS NOW MORE ACCESSIBLE

NEW

APEX LITE

DUMP TRUCK CONTROLS

A streamlined, cost-effective version of APSCO's proven APEX dump truck control, the APEX Lite delivers similar, safety-focused performance in a more versatile solution.

Designed for both new and existing trucks, it enhances operator awareness and control to help reduce costly jobsite incidents—putting some of the most advanced technology for safety within reach for fleets of any size.

UNSAFE GROUND WARNING

APEX LITE KEY FEATURES:

- Convenient 3.5" display screen
- Simplified, quick installation process
- Chimes to warn operator when driving with bed raised
- Dual axis inclinometer to monitor pitch & roll
- Alerts operator when on unsafe ground
- Can be installed on dump truck regardless of age
- Cost-effective option for fleets of any size
- Helps protect equipment and prevent costly disasters
- May contribute to more favorable insurance rates or help prevent premium increases*

* Insurance rates are determined by individual carriers based on their own underwriting criteria, and APSCO does not guarantee any specific impact on premiums.
