

# Ingersoll Rand Maintenance Kits

Providing you with a one-stop maintenance solution

## Customer Requirements for the Performance of Compressed Air Systems

## Risks of Purchasing Individual Parts

- Fragmented purchasing demand
- Complicated daily work
- Increased probability of unplanned downtime
- Inefficient time management
- Unforeseen expenses in the budget
- The hidden risks and costs of using non-original parts and services will increase

## Maintenance Kits Types

Periodic Maintenance Kits: Oil filters, air filters, and other consumable and wear parts  
2000 h/4000 h/8000 h/16000 h

Service Maintenance Kits: Regular repair service components for parts such as valves, coolers, etc.

### Save Money

The price of the maintenance kits is lower than the sum of individual part prices

### Save Worry

One-time budget price  
One-stop service  
Know the maintenance budget in advance

### Save Effort

One part number, quick operation, improve work and production efficiency, and reduce waiting time before service

**The maintenance kits include all the parts needed for one service maintenance**

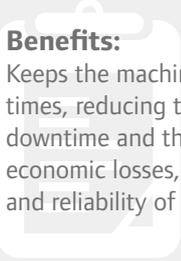

## Planning and Reliability

### Advantages:

Regular maintenance according to a plan allows for early scheduling of production plans and planned downtime for maintenance; at the same time, all spare parts are original genuine parts.

### Benefits:

Keeps the machine in an ideal condition at all times, reducing the risk of unexpected downtime and the resulting time waste and economic losses, ensuring the stability and reliability of machine operation.

## Comprehensiveness

### Advantages:

The maintenance kits include all the parts needed for one service maintenance, with all the replacement parts needed for one service provided at once. The maintenance kits have a shorter delivery cycle than uncertain individual parts.

### Benefits:

Minimizes downtime caused by missing parts or periodic service maintenance.

# Advantages of Service Maintenance Kits

## Efficiency

### Advantages:

One part number replaces a fragmented list of spare parts.

### Benefits:

Convenient for customers to purchase, and all parts can be delivered at once, allowing for faster use in periodic service/maintenance.

## Clear budget, lower cost

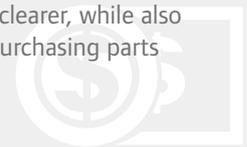

### Advantages:

One total price for maintenance kits or service package, making maintenance costs more intuitive.

The price of the maintenance kits is lower than the sum of individual spare parts.

### Benefits:

Makes budgeting simpler and clearer, while also saving on costs compared to purchasing parts individually.
