

Maximize Your Operational Efficiency with Ingersoll Rand Payment Solutions

Ingersoll Rand is a trusted expert in compressed air systems, helping customers with everything from system specification to installation and maintenance through our CARE Service Programs. We now offer convenient payment solutions that allow your business to invest in what matters most: revenue generation.

Preserve Capital

Enjoy the benefits of a state-of-the-art compressed air system without a hefty upfront cost. Spread payments over several years, easing capital strain and enabling you to allocate funds to other vital business areas.

Optimize your Budget

Treat your compressed air system as an operating expense for available tax and financial reporting advantages. Deduct payments from taxable income, potentially reducing your tax liability and improving your bottom line.

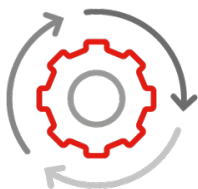

Accelerate ROI

Achieve ROI sooner with manageable quarterly payments that align your investment costs with the anticipated revenue generation from the use of the equipment. Start reaping the benefits of your compressed air system immediately, without waiting for capital budget approvals.

Expedite your Order

Avoid delaying critical operational upgrades due to budgetary constraints or lack of funding. Implement your new compressed air system swiftly to meet your business demands with manageable quarterly payments.

Gain Flexibility

Benefit from payment schedules that work in harmony with your cash flow and organization's financial cycle.

Make One Easy Payment

Bundle **PackageCARE**, **System Performance Manager**, and project soft costs (e.g. installation) into one predictable and convenient quarterly payment.

With Ingersoll Rand Payment Solutions, your business can experience a seamless, hassle-free equipment-as-a-service (EaaS) solution from a leader in compressed air systems.
