

Value Added Service

For **COMPLETE** and total peace of mind **assured**

AssureCOMPLETE offers outstanding value in asset management by transferring operational risk to CompAir. We take responsibility for scheduled maintenance and leverage predictive and analytical tools to prevent unexpected production interruptions.

inside

Ecoplant Monitor now included

With CompAir's new Compressed Air Management Solution powered by Ecoplant, our service goes beyond maintenance:

- **Ecoplant Monitor** delivers real-time monitoring, analytics and system insights for your compressed air installation — giving you machine-intelligence that drives efficiency, reliability and sustainability
- The solution seamlessly integrates with compressors equipped with CompAir's iConn™ platform — no additional installation work required

Why **AssureCOMPLETE** + **Ecoplant Monitor**?

TOTAL PROTECTION – ELIMINATE THE RISK

- Full coverage of all components, with the option to replace the entire compressor
- Transparent, predictable costs — no surprises, no fine print
- 100% coverage for repairs, parts, labor — service is always a priority

PROACTIVE & PREDICTIVE MAINTENANCE

- With Ecoplant Monitor and iConn analytics, we detect issues early and intervene before they cause downtime
- You benefit from data-driven maintenance planning, fewer unexpected breakdowns, and maximised uptime

EFFICIENCY, SUSTAINABILITY & COST CONTROL

- Real-time visibility of lifetime, energy, and maintenance costs — full control over operational expenditure
- Reduced energy waste, optimised system performance, lower CO₂ emissions — for a cleaner, greener compressed-air solution

ENERGY & PERFORMANCE INTELLIGENCE WITH ECOPLANT MONITOR

Ecoplant Monitor goes far beyond traditional maintenance. As a cloud-based system integrated via iConn, it provides:

- **24/7 visibility** into compressor and air treatment equipment
- **Unified dashboards** with unlimited historical trending
- **Proactive alerts** and predictive insights for early corrective action
- **Fast troubleshooting**, reduced downtime, and increased operating reliability
- **Energy and sustainability tracking**, supporting your CO₂ and efficiency goals

FLEXIBILITY & PARTNERSHIP

- AssureCOMPLETE offers flexible contract terms, includes old machines, dryers, filters or rental compressors
- With Ecoplant Monitor as standard, you get a future-proof, intelligent compressed-air solution — not just a maintenance contract

From **prediction to prescription**, Ecoplant Monitor ensures smarter decisions and higher system availability.

With **AssureCOMPLETE** + **Ecoplant Monitor** you get:

- Full risk transfer
- Proactive maintenance, predictive diagnostics and preventive action
- 24/7 system monitoring, data-driven energy & cost transparency
- High reliability, fewer downtimes, and lower total cost of ownership
- Optimised energy usage, sustainability and operational performance
- And after 6 Months upgrade to **Ecoplant Optimise**

YOUR REQUIREMENTS TO PARTICIPATE IN ASSURECOMPLETE:

1. Review and sign an agreement to transfer your risk and exposure to CompAir.
2. Submit a purchase order to CompAir.

3. Provide access to the assets identified in the agreement

AND... we work on other branded equipment too!

Ask your CompAir service provider for more information.

Upgrade Option – **ECOPLANT OPTIMISE**

ADVANCED COMPRESSED AIR MANAGEMENT

With **Ecoplant Optimise**, customers upgrade from monitoring to **system-wide optimisation**:

- ▶ Real-time **energy dashboard**
- ▶ AI-based **dynamic control algorithm** for multi-compressor systems

- ▶ **Automatic load/unload optimisation** for maximum efficiency
- ▶ **Leak detection** and full **system auditing**
- ▶ **Verified savings** with transparent reporting
- ▶ Enhanced resilience through optimised runtime distribution

Together, Ecoplant Monitor + Optimise enable **peak performance, maximum energy savings and full transparency** of your compressed air system.
