

CompAir Assure Service Agreements

Oil-lubricated and oil-free screw compressors

Invest in your future with a trusted partner

Compressed air is critical to your operation. A proper maintenance strategy is crucial to avoiding unplanned, unbudgeted downtime and production interruptions. By choosing a CompAir Assure Service Agreement, you are investing in your future with a trusted partner.

Advantages

Genuine Parts

CompAir genuine parts are your best choice for maximum reliability and optimal performance. Using genuine parts eliminates exposure to unnecessary equipment wear and tear, which leads to increased downtime and higher operating costs.

Predictive Diagnostics

Utilising best-in-class with iConn technology and big data analytics, your CompAir service provider will deliver additional value with predictive diagnostic reports with iConn Compressor Service 4.0.

Optimized for Efficiency

The largest operating cost for a compressed air system is electricity consumption. Our Assure Service Agreements help maintain compressor efficiency by ensuring that filters and fluids are kept in optimal condition, and controls are tuned for peak performance.

Trained Technicians

Anyone can turn a wrench, but knowing your technician is factory certified and trained to the highest safety standards allows you to focus on your core business, while we take care of your compressor system.

We Don't Forget

Automated shipment or scheduling reminders prevent any chance of overlooking or under-maintaining your equipment. Compressed air is our expertise and we will make sure you don't miss a scheduled maintenance.

Lasts Longer, Runs Better

Your compressor is as good as its components — each is dependent on the other for proper operation. Replacing the right parts at the right time ensures longer life and reduces the likelihood of unwanted surprises.

Rapid Response

As a CompAir Assure Service Agreement customer, you are our top priority when it comes to repair work.

Early Detection and Predictability

Our lubricant analytics and mechanical condition-trending service let us know when your equipment needs to be checked so it won't go down unexpectedly.

No Paperwork Hassles

Some extended warranties require you to maintain certain records or submit information to the supplier, otherwise coverage can be denied.

It All Adds Up to Peace of Mind

Lower Cost of Ownership

CompAir Assure Service Agreements provide the most cost-effective solutions based on your customized maintenance strategy.

Quality Results

CompAir factory-trained service technicians are backed by more than 145 years of industry experience.

Increased Uptime

Our Assure Service Agreements help decrease unplanned downtime and costly production interruptions.

Efficient Energy Use

Peak system efficiency is achieved through properly performed maintenance and inspection.

Peace of Mind

Our world-class services will help you achieve the results you need, while you focus on what's important to your business.

Oil-lubricated and oil-free screw compressors

Comprehensive Parts and Service Coverage

AssurePLAN+ provides predictable, on-time planned services including diagnostics to catch potential problems, before they result in larger headaches.

Get High Reliability and Improved Performance

- ✓ OEM expertise and early detection of impending problems
- ✓ Predictive diagnostics for lubricant condition
- ✓ Level, predictable maintenance costs
- ✓ Expert technicians keep your equipment tuned for peak efficiency and performance
- ✓ Reduce hassle and get peace of mind knowing your preventative maintenance is handled

Oil-lubricated and oil-free screw compressors

For COMPLETE and Total Peace of Mind Assured

AssureCOMPLETE represents the greatest value for asset management by transferring operational risk to CompAir. We are responsible for scheduled maintenance, as well as using iConn's predictive and analytical tools to help prevent unexpected interruptions in your production.

Get the Highest Equipment Reliability and Return on Your Maintenance Budget

- ✓ Eliminate the worry
- ✓ No interruption, no surprises
- ✓ Known budgeted costs
- ✓ 100% coverage of all repairs
- ✓ Service is always a priority
- ✓ Save on parts procurement and inventory cost
- ✓ Full risk transfer with mutual commitment
- ✓ Any term length

What can iConn deliver?

iConn monitoring supplies compressed air users with comprehensive machine data in real time, which is required for precise production planning and to protect their investment.

iConn keeps you in touch with your compressed air, anytime, anywhere

- **Advanced remote analysis** of compressed air supply through cloud-based condition monitoring of operating parameters
- **Evaluates historical data** and provides predictive and cognitive analysis
- **Reduces the risk** of downtime through monitoring and warning
- **Enables** simple, proactive monitoring of remote locations
- **Maximises energy efficiency** of the compressed air supply
- **Optimises compressor performance** through machine parameters and trend analyses
- **Works to an open standard** and can easily support compressed air products from other manufacturers
- **Maintenance** is performed exactly when and only when the probability of a failure increases
- **New compressors** from CompAir are already factoryfitted with iConn at the factory

iConn is compatible with all CompAir devices, is user-friendly, easy to install and can be integrated as a retrofit solution into existing (and third-party) equipment. With iConn you can now monitor your entire compressor fleet/compressed air system – anywhere in the world – via PC, tablet or smartphone.

iConn benefits at a glance

Proactive real-time monitoring with iConn for your compressed air installation, delivers many benefits:

- ✓ Real-time operating data available around the clock
- ✓ On-demand maintenance extends compressor life cycle and optimises costs
- ✓ Maximum compressor performance reduces energy consumption
- ✓ Predictive and preventative monitoring and warnings avoid expensive downtime
- ✓ Wear of compressed air components is identified early
- ✓ Reduce operating costs caused by increased pressure drop in filters and separators through late maintenance
- ✓ Identify potential savings by measuring costs and efficiency
- ✓ Optimised maintenance planning

CompAir Assure Service Agreements

Invest in your future
with a trusted partner

Your Requirements to Participate in one of the CompAir Assure Service Agreements

1. Review and sign an agreement for scheduled maintenance for
 - **AssurePLAN** or
 - **AssurePLAN+** or
 - **AssureCOMPLETE**
2. Submit a purchase order to CompAir.
3. Provide access to the assets identified in the agreement.

We work on other branded equipment too!

Ask your CompAir service provider for more information.
