UL Solutions Lab Submission & Regulatory Verification Requirements for WFS Pesticides

1. Required Packaging Images (All Product Types)

Submit clear, legible images of all sides of product packaging. All text must be readable.

2. Product-Specific Submission Requirements & Lab Review

EPA Registered Pesticides

You submit:

- Images of all sides of packaging

Lab reviews:

- Valid federal EPA registration
- Label matches EPA approved master label

Minimum Risk 25(b) Pesticides

You submit:

- Images of all sides of packaging

Lab reviews:

- Required label components are present
- Ingredient lists (active/inert)
- Claims for compliance with 25(b) exemption
- Company name/contact info
- All mandatory label statements

Pesticide Devices

You submit:

- Images of all sides of packaging

Lab reviews:

- EPA establishment number is valid and active
- Label components: manufacturer name/address, net quantity, directions for use, caution/warning statements and other applicable label components.

Treated Articles

You submit:

- EPA registration number of the pesticide incorporated into the product

Lab reviews:

- Active federal registration for the incorporated pesticide
- Claims and uses allowed under that EPA registration
- No prohibited public health claims

3. State Registration Verification Requirements

What Requires State Registration?

- **EPA registered pesticides:** Required in all states
- **Pesticide devices & minimum risk 25(b) pesticides:** Required in some states
 - State registration data may auto-populate from Alstar and Kelly systems into UL Solutions' platform if information is available.

Your Responsibilities

1. Verify accuracy of all populated state registration data.
2. Correct errors by noting changes in the Comments/Instructions section.
3. Upload state-issued registration certificates for states with active registrations not shown in the system.
4. No action needed when registrations appear correctly.
5. Discontinuance: Products registered within states as "discontinued" must be restricted from sale in that state.

Important

When a state registration expires, you must provide the renewal certificate to UL Solutions, or your product will be blocked from sale in that state.

You are responsible for keeping state, local and other jurisdictional shipping restrictions for your items up to date in Seller Center. Enter the applicable ZIP codes for any local or jurisdictional restrictions.
