The Company had earlier disclosed, vide its letter dated December 22, 2022, that the Board of Directors had approved the setting up of a new manufacturing plant in Gujarat to enhance manufacturing capacity for existing and new products.

Subsequently,

- in the Chairman’s speech at the previous Annual General Meeting held on August 13, 2024, it was communicated that the state-of-the-art facility was expected to become operational by April 2025.
- in the disclosure vide its letter dated February 14, 2025 on the outcome of the board meeting held on the same date, it was communicated that due to extended monsoon rains during August 2024 to October 2024, unforeseen operational and logistical factors, the operations at the new Sanand facility was expected to commence by August 2025.

Now that the factory construction is nearing to completion after delays due to administrative, operational, logistical factors and mainly due to delay in obtaining the statutory approvals, the trial production is likely to commence in September 2025 and upon its successful outcome, the facility would be fully operational in October 2025 marking significant milestone in our growth journey, if every dependable circumstance are in favourable to meet these timelines.

We are eager to share with you the confirmation of the production at this facility in October 2025.
