

Robox Lobe

Start-up & Commissioning Kits

**Easy & Effective Solution
for Your Peace of Mind**

ROBUSCH®

**COST
REDUCTION**

The background is a complex graphic. It features several interlocking gears of different sizes. One large gear in the center has the text 'COST REDUCTION' inside it. To the right, a hand is pointing towards the gears. There are also various business-related icons scattered throughout, including a bar chart with an upward arrow, a dollar sign inside a gear, a target, and a world map. The overall color scheme is dark blue and grey.

Start-up & Commissioning Kits

At Robuschi, our Engineers and Technicians always concentrate on making our customer's lives better with easy and prompt solutions.

We know how important it is to maintain your lobe blower package to keep it running at optimal performance, and for this very reason, we have designed our **Start-up & Commissioning Kits**.

Let us worry about the recommended maintenance and genuine spare parts for your Robox Lobe!

We can manage your scheduled maintenance and request the genuine parts you need when you need them. We'll remind you of any maintenance for up to 24 months from the day your Robox Lobe was commissioned.

Robuschi is offering you an easy and cost-effective solution for performing preventative maintenance for your Robox Lobe blower package from the time it is commissioned up to 16000hrs or 24 months of operation, whichever comes first.

Our start-up & commissioning kits are carefully assembled and contain what you need for servicing your Robuschi equipment as outlined in the operating manual. No more reading through part lists! No more annoying order and delivery problems!

Furthermore, the kits are priced lower than if you ordered them individually. Don't forget our parts are OEM quality.

Easy & Effective Solution to Maintain Your Robox Lobe

OUR SOLUTION

Robox Lobe (ES - EL) Start-up & Commissioning kits contain:

- **Robuschi Long Life synthetic oil (Lobe H)**, quantity for 3 fills (1st fill at 500h, 2nd fill at 8000h)
- **Air filter** (element or cartridge filter depending on frame type), quantity 1

Dedicated kits exist for each Robox Lobe frame size and air-end combination for a total of 17 variants.

YOUR ADVANTAGE AT A GLANCE

- Lower price than when purchased separately
- Offer a reduction in your maintenance expenditures
- Guarantee proper function
- Increase the service life of your devices
- A 10% price concession will be applied for every kit that is ordered with the Robox Lobe blower package

Maximum uptime. Extending performance.

We provide a range of services to ensure our customers' machines are well maintained to deliver maximum performance.

We offer preventative and planned maintenance programs, genuine parts, on-site service, professional maintenance and efficient training.

Within our service portfolio, you will find many and varied options and services needed to get optimal performance, maximum uptime and operating efficiency from your Robuschi equipment.
