Pepco is At Your Service

Welcome to Pepco! Thank you for being a valued customer. We want you to get the most out of your account. Use this booklet as a helpful guide for doing business with us. Inside you'll find information about customer service, managing your account online, energy efficiency programs and more.

Electric Choice

You have the option to receive your electricity from Pepco under Standard Offer Service (SOS) or shop among licensed competitive electric providers and choose an electricity supplier other than Pepco. By shopping, you may be able to save money on your electric bill or buy environmentally friendly electricity.

Whether you choose to stay with Pepco as your electric supplier, or choose another supplier, we will continue to provide safe and reliable electric distribution service. We also will continue to restore service in the event of any disruption, such as weather related events. The reliability of your service will not be affected by your choice.

Supply Price Comparison Information

To help you evaluate offers from suppliers, we provide the current Pepco annualized price of SOS. This information can be found on your bill and on our website at pepco.com/PriceToCompareDC. The supply price information is provided in cents per kilowatt-hour (kWh) that includes the costs for SOS (generation and transmission) service.

The supply price does not include other parts of your electricity bill such as the cost to deliver electricity to your home, taxes and other charges that stay the same regardless of which company you choose as your supplier. When evaluating supply offers, you should know the price information for each potential supplier and the amount of electricity you use each month.

Suppliers are licensed by the Public Service Commission of the District of Columbia ("the Commission"). Review suppliers' materials before making any decisions. For more information, visit dcpowerconnect.com or pepco.com/Choice-DC.

Customer Service

Phone

Call us at 202-833-7500, between 7 a.m. and 8 p.m., Monday – Friday, with questions or for information about our programs.

Online

You can also submit your questions online by visiting [pepco.com/ContactForm](https://www.pepco.com/ContactForm).

Multi-Language Service

Our Customer Care representatives can assist customers in 200 languages. All non-English speaking customers can call us at 202-833-7500.

Servicios Multilingües

Los representantes de Pepco pueden ayudar a los clientes en 200 idiomas. Todos los clientes que no hablan inglés pueden llamar a Pepco a 202-833-7500 para hispanohablantes. Vea la lista completa de nuestros servicios y de números telefónicos para información adicional en la última página.

Mail

Pepco
Customer Correspondence, 7th Floor
701 Ninth Street, N.W.
Washington, D.C. 20068-0001

Remember to include your account number, service address, email address and daytime and home phone numbers with your letter.

In Person

For your convenience, our Customer Care Centers in the District of Columbia and Maryland are open Monday through Friday at the following locations and times:

Washington, D.C.

701 Ninth Street, N.W.* 8:30 a.m. – 5:15 p.m.
2300 Martin Luther King, Jr., Ave., S.E. 9 a.m. – 5 p.m.

Maryland

201 West Gude Drive*
Rockville, MD M–F: 10 a.m. – 2 p.m.

*These locations have after-hours deposit boxes for the payment of bills.

Reporting Outages

There are several ways you can report outages and get information.

Online

Go to [pepco.com](https://www.pepco.com) and click on “Outages”

- Report an outage quickly and get real-time updates by entering your phone number or account number
- With our dynamic outage maps, you can zoom in to see outages and estimates for when power will be restored in a specific area (updated every 10 minutes)

Mobile Device, Report in App

Our free mobile app lets you report an outage, get real-time updates on when your power will be restored, access outage maps of your area and get the latest news – all on your smartphone or tablet.

Get the app at [pepco.com/MobileApp](https://www.pepco.com/MobileApp) or your app store.

Mobile Devices, Text

Text “OUT” to 48710 to report an outage or text “STAT” to get updates on power restoration. Customers must first text “ADD OUTAGE” to 48710 to sign-up for the service.

Phone

Call 877-PEPCO-62 (877-737-2662) any time to report your outage.

Wires Down

Call 877-737-2662 and follow the prompts or Pepco MD TTY 800-735-2258 (English) or 800-877-1264 (Spanish) or Pepco DC TTY 800-643-3768 (English) or 800-546-7111 (Spanish) anytime.

Your Electric Service

Start, Stop or Move Service

Customers can start, stop, or move service online, anytime:

- Start Service: [pepco.com/Start](https://www.pepco.com/Start)
- Transfer Service: [pepco.com/Move](https://www.pepco.com/Move)
- Stop Service: [pepco.com/Stop](https://www.pepco.com/Stop)

You can also contact us by phone at 202-833-7500 or in writing (see page 2 for address).

As many as two individuals can be listed on your Pepco account. Only the person(s) whose name appears on the bill can make changes to the account or to the electric service.

Customer Deposits

You may be required to pay a deposit or establish satisfactory credit. If a deposit is required for residential customers, it will be two months of the estimated average annual bill or \$100, whichever is less. A deposit and accrued interest will be refunded promptly or credited to your account upon payment of all proper charges for utility service for twelve (12) consecutive months.

Other deposit arrangements are made in cases involving short-term or special service conditions. Residential deposits are typically automatically assessed on the first bill. The customer can request up to six months to pay the security deposit once it is assessed. Customers over the age of 60 and military families may be exempt from a deposit on new service.

If you refuse to pay a deposit, service may be denied or disconnected. Deposits may not be applied against overdue bills. A copy of the residential deposit rules, as adopted by the Commission, is available upon request.

How to Discontinue Service

To transfer or terminate service for any reason, please notify us at least three business days in advance of the desired discontinuance date at pepco.com, by phone, by mail or in person. **The three business days' notice is important because you are responsible for — and may be billed for — all service at the previous service address for 3 days after the date of such notice.** If no new party is moving in, the service may be disconnected. If you use a competitive electricity supplier, we will notify the supplier of the discontinuance of service. However, we also encourage customers to contact their suppliers directly to discuss discontinuing their supply service.

After you close your account, we will send you a final bill. Closed accounts that remain unpaid after the due date will be referred for collection. In addition, future requests for service will be delayed until all amounts due are paid in full and deposit requirements have been satisfied.

Pepco's Electric Meter

Smart meters feature a digital display and are equipped with two-way communications between your home and Pepco.

They provide you with detailed information that can help you understand and make decisions about your energy use. Smart meters also provide benefits for customers, including energy management tools through My Account, remote connects and disconnects when moving, remote meter readings and fewer estimated bills. In addition, smart meters provide faster outage detection if an outage occurs.

For more information about smart meters and their benefits, visit pepco.com/SmartMeters or call 202-833-7500.

Meter Access

You are responsible for providing us with access to the company owned meter in order to read it, test it, disconnect it, remove and/or replace it. If reasonable access is not provided, service can be terminated until access is provided and any applicable fees and other outstanding charges have been satisfied.

Meter Accuracy

We routinely test our meters for accuracy according to Commission regulations. Customers may request a meter accuracy test at no charge every 12 months as well as a meter test refereed by the Commission.

Estimated Readings

Estimated readings may be used for your bill when a meter has not been read. Your bill will state that it is based on estimated meter readings, when applicable.

Get the Pepco Mobile App

Pepco's free mobile app gives you the power to access your account information from a smartphone or tablet. With the app, it's easy to:

- View your bill and manage your billing and payment options
- Report outages and view Pepco's outage map or, check your energy usage
- Manage your energy usage

- Use notifications and alerts to receive up-to-the-minute updates from Pepco

Download the free mobile app at pepco.com/MobileApp.

Billing Information

You will receive your Pepco bill monthly. Your energy use will be presented on your bill as the total of your hourly use since your last billing period.

You can view your energy use online when you sign up for My Account at pepco.com or you can look at the meter's digital dial. Either way, you can compare this information with your monthly bill to determine its accuracy, and to see **when you're using the most electricity so you can make informed decisions about how you use energy.**

The service period for normal monthly billing varies from 25 to 35 days. For residential customers, initial bills may cover service periods that vary from 16 to 45 days. Commercial customers may receive initial bills for service periods less than 16 days.

Understanding Your Bill

There are three major components that make up your electric bill:

- Supply (producing electricity)
- Transmission (sending electricity over long distances)
- Delivery (distributing electricity locally)

Also included are government charges (taxes and surcharges imposed by the government and regulators).

How to Read Your Bill

See sample bill on pages 8–9 for key.

1. **The billing period** – The time period during which you received service and for which you are being billed.
2. **Account details** – The name registered to the account, service location, account number and the bill issue date.
3. **Contact information** – Our phone numbers for customer service, emergencies, outages, as well as our web address.
4. **Summary of your charges** – A summary of previous balance, payments received, charges for service used, supplier charges if applicable, and the total amount now due.
5. **Bar graph** – Displays 24 months of energy usage data. It may print on a following page based on your service.

6. **Payment coupon** – The portion you return with your payment. To expedite processing, your account number, name, mailing address, as well as the payment mailing address are pre-printed on it.
7. **Details of your electric charges** – This section includes your meter number, billing period, number of billing days and the total hourly usage data. This will also include applicable net energy metering credits for excess generation.
8. **Delivery charges** – A detailed list of your delivery charges related to the cost of bringing electricity to you via the poles and wires for the current billing period. Go to our tariff page at pepco.com/Tariffs for more information about specific charges.
9. **The electric summary** – Itemization of any changes or adjustments including supplier charges, if applicable, made to your account during the current billing period. Your bill may not print this summary if none apply.
10. **Supply charges** – Reflect the cost for us to buy the produced electricity for you. This is the portion of your bill that you can compare to offers from competitive suppliers.

Definitions of Charges:

Customer charge – A fixed monthly charge that reflects the cost of maintaining your service, regardless of how much energy you use. The Maryland Public Service Commission (“the Commission”) regulates this charge.

Delivery charges – The cost of bringing electricity to you via the poles and wires.

Distribution charge – The cost of moving electricity from your local substation and power lines to your home or business. The Commission regulates this charge.

Procurement cost adjustment – A monthly charge or credit that ensures that Pepco receives no more or no less than its cost for procuring supply services for Standard Offer Service customers.

Supply charges – The cost for Pepco to buy the produced electricity for you. This is the portion of your bill you can compare to offers from electricity suppliers. If you choose a new supplier, you will pay that supplier's price for producing electricity instead of the price you currently pay Pepco.

Standard offer service – This reflects the cost for Pepco to buy the produced electricity if you do not choose a

Understanding Your Electric Service Rates

Your Pepco bill is calculated based on the kilowatt-hours consumed and the rate schedule that applies to your account.

Customers can view the rate schedules in Pepco's Tariff by visiting pepco.com/Tariffs. Changes in usage, equipment or regulatory actions, however, may affect the rate that is applied to your account.

Demand for electricity is higher during extreme winter or summer weather conditions. Please note that increased electricity use drives up energy costs. Your billing indicates whether summer rates (June–October) or winter rates (November–May) are in effect. Check the listings below to make sure you are being billed on the correct rate schedule.

Residential Rate Schedules for Electric Service Schedule R*

R Residential

*You may view Pepco's rates at pepco.com/Tariffs or obtain a copy by calling 202-833-7500.

Master-Metered Apartments

The Master-Metered Apartment Tariff is available for separately metered service billed on Schedule "GS ND" that qualified for multiple application of the residential rate as of December 31, 1982.

Convenient Ways to Pay

We offer customers a variety of payment options so you can choose the one that's best for you. Find all your options at pepco.com/Payment.

Online

Pay online by signing in to My Account. Save your payment information in your secure My Wallet to make paying your bill faster and easier.

You can also pay your bill as a guest online by making a one-time payment by electronic check, credit or debit card. Convenience fees apply.

Mobile App

Make payments by accessing your My Account with the Pepco mobile app. Save your payment method in your My Wallet so you can pay your next bill with the push of a button.

Automatic Payment

Log into My Account and set up recurring payments so you will never have to write another check. With AutoPay, your Monthly bill is paid directly from your bank account, with no fees. This option gives you more flexibility with payment timing and payment limit.

Direct Debit

With Direct Debit, your payment is automatically deducted from your bank account on the due date of your bill. You will receive a monthly statement with the amount due and the date of deduction. Signing up for our Direct Debit option can be completed online with no registration required. If you are already enrolled in auto-pay you will be unable to sign up for Direct Debit.

Chatbot

Pay online with our chatbot located on the pepco.com home page. Click on the chat bubble and select Billing and Payment from the menu.

Voice Assistant

Link your My Account to Google Assistant or Alexa to get your account balance, make a payment, report outages and check your outage status. Just say "Hey Google" or "Alexa" to get started.

Mail

Mail your payment to: Pepco, P.O. Box 13608, Philadelphia, PA 19101-3608. Please allow enough time for the payment to reach us by the payment date.

Pay By Phone

Pay your bill with a credit card, debit card or an electronic funds transfer by calling 833-260-2451. Convenience fees may apply. Have your account number ready.

Pay with PayPal

Manage and pay your bills in the app or online with ease.

In Person

- **Self-Service Payment Kiosks:** Use one of our self-service payment kiosks at our Pepco Customer Service Centers or our after-hours drop boxes (see pages 2-3 for locations and times). Payments made after hours are processed the next business day.

Payment Policies

Late Payment Charges

The payment date is the date we must receive payment, not the postmarked date, as your bill is for electricity already used. Bills are due when rendered and are payable within 20 days. If not paid by the due date shown on the bill, a late payment charge will be added to the remaining unpaid balance each billing month thereafter. Repeated late payments may result in disconnection and collection action.

Returned Checks

We charge a \$5 service fee for returned checks. The first time a check is returned, the fee may be waived. If more than one check is returned in any 12-month period, we will not accept another personal check. We will require future payments to be made in cash, certified check, cashier's check, money order or credit card.

Electronic Funds Transfer

When you send a check to pay your bill, you authorize us to process your payment electronically. If your payment is processed electronically, your checking account may be debited on the same day we receive the check.

Payment Plans

If you are having trouble paying your bill, please call Customer Care at 202-833-7500 and let us know. We offer several alternate payment plans that may be helpful:

Budget Billing – Budget Billing is available for customers who would like to be able to budget for electricity rather than paying bills that vary monthly and seasonally. With budget billing, your estimated energy costs are spread evenly over the entire year. The plan is open to residential customers and small non-residential customers who meet eligibility criteria.

If your main source of household income is received on an established date by a source such as the government or an assistance program, you may qualify for a regular extension of your bill due date without incurring a late charge.

Extended Due Date – If your main source of household income is received on an established date by a source such as the government or an assistance program, you may qualify for a regular extension of your bill due date without incurring a late charge.

Payment Installment Plan – If you are experiencing temporary financial conditions that make it difficult to keep your account current, you may be eligible for paying installments on your past due balance, along with your current bill.

Disconnection and Reconnection of Service

Reasons and Procedures for Disconnection of Service

For customers who work with us in good faith, we can help you avoid having your service disconnected. If you are having trouble paying your bill, please let us know. We have several different payment plans to assist customers (see page 13).

The situations in which we can disconnect your electric service without notice and despite weather conditions are:

- electrical safety hazards on the premises;
- use of customer equipment in such a manner that damages it or affects service to others;
- unauthorized use of service;
- tampering with Pepco equipment.

We may disconnect service after 15 days' notice in situations that include, but are not limited to, the following:

- falsifying information when applying for service;
- failure to allow us to access our equipment;
- nonpayment of a delinquent account;
- failure to post a cash security deposit or guarantee of payment, when required;
- failure to comply with the terms of a payment installment plan.

Service Disconnection Procedures

If it becomes necessary to disconnect a customer's service, in most cases we will send a final notice of disconnection to the customer at least 15 days before the scheduled date of disconnection. For information on settling billing disputes and filing complaints, see page 14. For residential energy assistance programs, see page 15.

Season Disconnection Procedures (Residential Customers Only)

Service will not be terminated if:

- You can show reasonable evidence that the bill has been paid
- The outstanding bill is the subject of a formal dispute between you and the company
- Payment of the bill is made to our service person who comes to terminate the service

Seasonal Termination of Service Procedures

In certain circumstances, we will postpone disconnection for nonpayment of a delinquent account, failure to pay a cash security deposit or guarantee, or failure to comply with terms of a payment installment plan. In the winter, disconnection will be postponed when the temperature or wind chill factor is forecast to be 32° F or below during the next 24 hours or during a holiday or weekend. Service termination during the summer will be suspended on days when the forecast temperature or heat index exceeds 95° F for a 24-hour period.

Temporary Disconnection

If you plan to do anything to your property, such as install aluminum siding or have an electrical contractor work on your main service, we will disconnect and reconnect service, if given adequate notice to schedule a service call. There is a fee for this service. Call 202-833-7500 to request this service.

Service Reconnection

To have service reconnected, customers must pay a reconnection fee of \$35. For disconnections that were not requested by customers, customers may be required to fulfill other obligations, such as re-applying for service or paying past-due bills in full, prior to service being restored. Service will normally be reconnected within 24 hours once all requirements have been satisfied. For safety reasons, we require that a responsible adult be present when service is reconnected.

Settling Billing Disputes

If you wish to dispute your bill or a termination of service, call for a review of your concern at 202-833-7500.

In the course of a bill dispute, you are required to pay the undisputed portion of that bill for your electric service to continue. If our review determines that the bill is accurate, you must pay the full amount of any outstanding balance. If the balance remains unpaid, electric service will be subject to termination.

If it remains unpaid, electric service may be subject to disconnection.

Your Right to File a Complaint

You may file a confidential complaint with the Commission at the following address:

Public Service Commission of the District of Columbia
1325 G Street, N.W. Suite 800
Washington, DC 20005
202-626-5120
9 a.m. – 5:30 p.m., Monday – Friday (except holidays)
dcpsc.org

We suggest that you include the following information with a customer complaint to the Commission:

- Customer name, address, email address and account number
- Utility involved in the dispute
- Reason for the dispute
- Summary of the your efforts to resolve the dispute with the utility
- Copies of bills, correspondence or other documentation

Regardless of dispute proceedings, the customer is fully responsible for all undisputed bills — past due, current or future — for service provided by us.

Customers may also contact the Office of the People's Counsel for the District of Columbia for assistance and legal representation.

655 15th Street NW Suite 200
Washington, DC 20005
202-727-3071 | email: info@opc-dc.gov

Residential Energy Assistance Programs

Our representatives can help residential customers find agencies in the District of Columbia that provide financial assistance to help pay energy bills.

Low Income Home Energy Assistance Program (LIHEAP)

LIHEAP provides financial assistance to qualified residents who meet certain income requirements. It helps pay for your home's primary heating source, whether you heat your home electrically, or with gas, oil, coal, wood or propane. Call the District Department of Energy and the Environment's (DOEE) hotline at 3-1-1 for more information or visit doee.dc.gov/liheap.

Residential Aid Discount (RAD)

Our RAD program provides qualified customers with a monthly discount called the "Residential Aid Credit," which consists of a credit for the customer charge, energy charge, the RAD Surcharge, the Sustainable Energy Trust Fund charge, the Energy Assistance Trust Fund charge, the Underground Project Charge and the Underground Rider.

To be eligible for RAD, customers must be certified by DOEE as meeting certain eligibility requirements. Call 3-1-1 for more information or visit doee.dc.gov/UDP.

Arrearage Management Program

The Arrearage Management Program is a new payment option that makes it easier for eligible Pepco customers in the District of Columbia to budget monthly energy bills and reduce or eliminate unpaid account balances. It is currently available to customers that qualify for the Residential Aid Discount and have at least \$300 in arrearages. To enroll, call 202-496-5830 or e-mail EnergyAssistanceMailbox@pepco.com.

Washington Area Fuel Fund (WAFF)

The Washington Area Fuel Fund helps qualified customers pay their heating bills. Customers can apply for this program by contacting the Salvation Army office at 202-332-5000 (Wards 1–6) or 202-678-9771 (Wards 7–8) or apply on-line at salvationarmynca.org/gethelp/dc-emergency-assistance.

Sustainable Energy Trust Fund (SETF) and Energy Assistance Trust Fund (EATF)

Administered by the DOEE, the Sustainable Energy Trust Fund and Energy Assistance Trust Fund are additional sources of assistance for qualified low-income families and individuals.

Emergency Medical Equipment Notification Program

Termination of service may be postponed for 21 days if we are provided with a medical provider's certification stating that an occupant of the residence has a serious illness or relies on life-support equipment and that termination of service would be detrimental to the health and safety of the occupant. Call us at 202-833-7500 or visit pepco.com/EMENP to obtain the necessary form for you and your medical provider to complete and send back to us.

Once enrolled in the program, you will receive an information package to help you prepare for emergencies, notification of scheduled outages in your area and notification of severe storms such as hurricane warnings that could lead to extended outages on our electric system.

Please be advised that we do not provide participants with priority restoration during storm restoration. If the loss of electricity would jeopardize the life or safety of

persons with special medical needs, it is the customer's or occupant's responsibility to provide backup system or other alternatives for meeting those medical needs. Also, we do not guarantee a constant supply of electricity and reserve the right to interrupt the supply without notice under emergency conditions, for the safety of our employees or any time for necessary repairs.

Energy Wise Rewards™

This program offers automatic savings up to \$120 for customers with central air conditioning or a heat pump. To learn more, call 866-353-5798 or visit pepco.com/SaveEnergy.

Net Energy Metering

We support renewable energy and partner with our customers to ensure safe and reliable interconnection of renewable energy into the electric grid. Customers who generate their own electricity with renewable energy sources can interconnect with the electric grid and receive bill credits for any excess generation, through net energy metering. Our Green Power Connection team will help facilitate net energy metering interconnection requests. To learn more visit pepco.com/MyGPC.

Safety

Before You Dig, Call 8-1-1

If you are planning to plant a tree, build a deck or begin any project that requires digging, remember to call 8-1-1 at least 48 hours in advance of construction. It is the phone number to the District One Call Center (Miss Utility) that marks underground utility lines. Calling 8-1-1 before you dig helps prevent damage to electric lines, gas pipelines and other utilities that could result in hazardous conditions and potentially expensive fines and repairs.

Identifying a Pepco Employee

For your protection, our employees are required to carry a photo-identification card at all times. Ask to see this card if anyone claims to be our employee and wants to enter your home.

If you have any doubt about the validity of a person claiming to represent Pepco, please call us immediately at 202-833-7500.
