SEEPEX IQ

INTELLIGENT PUMP MONITORING. SIMPLIFIED.

SEEPEX IQ is the compact, smart unit that turns any progressive cavity pump into a connected, intelligent asset.

Magnetically attached, simply connected, easily powered, Bluetooth enabled and ready for the **SEEPEX Cloud**.

SEEPEX IQ opens the door to digitalization – delivering real-time visibility, condition-based maintenance and improved performance while reducing downtime. All without complex installation or high hardware costs.

LEARN MORE

OVERVIEW

SEEPEX IQ captures key operating data directly at the pump, delivering clear insights into pump condition and performance.

MONITORING

- Pump status
- Temperature
- Vibration
- Discharge pressure

FROM MEASUREMENT TO INSIGHT

- Reduced unplanned downtime
- Improved component protection
- Better maintenance planning
- Optimized performance over time

Data is transferred via **Bluetooth** or securely uploaded to the **SEEPEX Cloud**.

SIMPLE BY DESIGN

- Magnetic, fast installation
- Flexible power supply via 12-14 VDC
- Low entry cost: pump monitoring that fits any budget
