

VASCULAR ACCESS DEVICE MANUFACTURING

Medical device's most nimble, trusted, and innovative CDMO Partner enabling our customers to advance the standard of care for patients globally

At Flexan, we combine decades of expertise with cutting-edge technology to deliver high-quality rubber components for the medical industry. Whether you need short-term or long-term implantable solutions or non-implantable components we provide flexible, scalable manufacturing tailored to your needs. With a global footprint and a vertically integrated approach, we help customers accelerate time-to-market while maintaining exceptional quality.

Key Advantages

- **Legacy & Advanced Support:** We seamlessly manage both new advanced developments along with legacy product transfers.
- **Wide Product Capabilities:** From cost-sensitive disposable components to life-critical short-term and long-term implantable components and devices.
- **Proven Experience:** Over 80 years of industry leadership.
- **Global Reach:** Facilities strategically located worldwide.
- **Vertical Integration:** Streamlined operations for speed and cost efficiency.
- **Financial Strength:** Backed by Ingersoll Rand for stability and growth.
- **Flexible & Scalable:** From Start-ups to Strategics, production volumes from thousands to multi-millions.

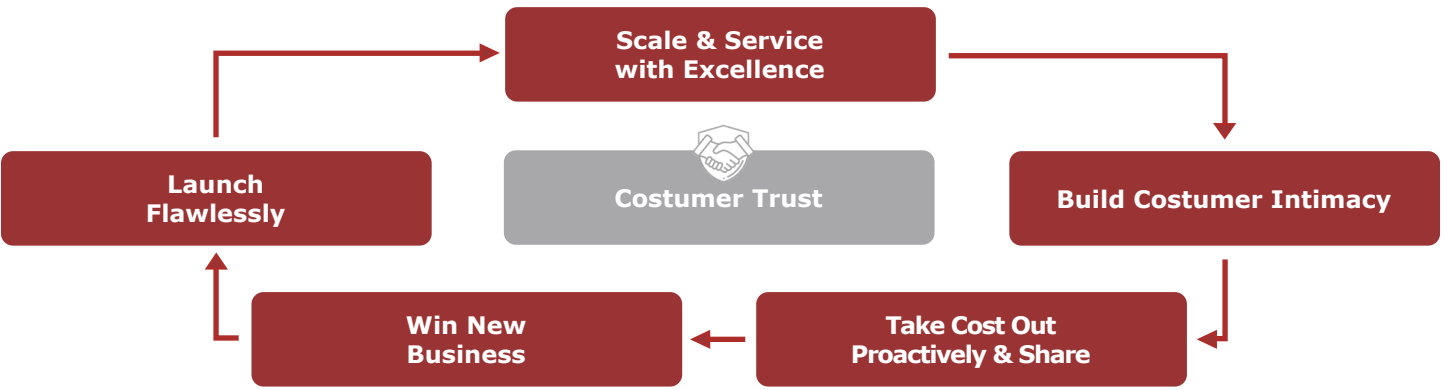

Capabilities

- Molding
(compression / transfer / injection molding)
 - All sizes including micro-molding
 - Overmolding
 - Insert Molding
- Material Expertise (HCR / LSR)
- Compounding
- In-House Tooling Design and Manufacturing
- Secondary Processing
- Device Assembly
- Kitting & Packaging

Flexacution - Built on Trust. Designed Around Our Customers

Partnership intimacy is earned through consistent execution and shared success. We build trust by launching programs flawlessly, scaling with operational excellence, and staying deeply aligned to our customers’ goals.
Through proactive cost optimization and collaboration, we create measurable value and strengthen long-term partnerships, driving repeat business and sustainable growth.

Committed to Quality and Compliance

Flexan operates under the highest industry standards to ensure safety and reliability. We are ISO 13485 and ISO 9001 certified, and our facilities are FDA registered, giving you confidence that every component and device meets rigorous regulatory requirements.
