

SRP BUSINESS SOLUTIONS™

Offering business customers up to \$300,000 per year in energy efficiency rebates.

Effective FY26 (May 1, 2025–April 30, 2026)

Delivering water and power®

SAVE WITH SRP

Find out which rebate programs are right for you.

	STANDARD BUSINESS SOLUTIONS	
DESCRIPTION	This program provides rebates for common energy efficiency measures, including high-efficiency lighting, HVAC, building envelope, compressed air and refrigeration equipment, as well as select sensors and controls.	
WHAT QUALIFIES	Measures must meet equipment catalog/program guidelines: • Lighting • Lighting controls • HVAC • Energy management systems (EMSs) • Variable-frequency drives (VFDs) • Building envelope (window film/shade screens), cool roof coating, roof/ceiling insulation • Compressed air equipment • Refrigeration equipment and controls • Building controls • IT and data center equipment • Kitchen equipment • Pool pump VFDs • Heat pump water heaters • Ultraviolet Germicidal Irradiation	
REBATES	• Interior lighting: \$0.25–\$0.35 per watt reduced • Interior lighting controls: up to \$0.40 per watt controlled • Exterior lighting: \$0.15 per watt reduced • Unitary heat pumps: \$110–\$135 per ton • Variable-frequency drives: \$90–\$300 per horsepower (hp), depending on application • Building envelope: \$0.75 to \$0.80 per square foot for window film and shade screens • Refrigeration, compressed air and data center equipment: varies • HVAC controls: (sensors, thermostats and advanced rooftop controls) varies • Energy management systems: \$0.20–\$0.30 per square foot of conditioned space • Additional HVAC opportunities available, incentives vary • HE server replacement (retro) and server virtualization	
WHEN TO APPLY	Lighting retrofit: Preapproval is required prior to purchasing, ordering or installing. Other measures: Post-purchase is allowed. Retrofit and new construction projects are eligible.	
KEY BENEFITS	• Lower electric bills • Lower initial cost • Less downtime and fewer repairs • Lower maintenance costs • Improved comfort in the workspace	

HOW DO I APPLY?

Detailed program information and forms are available at savewithsrpbiz.com or by calling us at (602) 236-3054.

SRP Business Solutions offers a wide range of energy efficiency opportunities, including rebates for technical assistance and equipment installation. There's a rebate for every size and type of business and industry.

PROGRAM CAP

\$300,000 per year, per customer, for energy efficiency programs.

	SRP CUSTOM BUSINESS SOLUTIONS™	
DESCRIPTION	This program offers the flexibility to identify and implement energy efficiency projects unique to a facility and its operations. If energy savings can be measured, the project probably qualifies. Preliminary assessments are available to qualifying customers to help identify energy-saving opportunities.	
WHAT QUALIFIES	Most equipment that reduces annual energy consumption and energy consumption during SRP's summer peak period is eligible. Equipment must not be eligible for a rebate under the Standard program. EXAMPLES: - Central plant controls optimization - Compressor replacements in chillers - Upgrading refrigeration compressors and condensers - Conversion from constant air volume to variable air volume - Improvements to the building envelope - Optimization of compressed air systems PRELIMINARY ASSESSMENTS ARE AVAILABLE FOR: - Receive electrical service on a qualifying E-60 series rate plan - Non-HVAC pumping systems with at least 25 hp, excluding backup - Data centers larger than 1,000 square feet - Compressed air systems with at least 100 hp, excluding backup - Compressed air system leak assessment between 25 and 100 hp	
REBATES	Equipment: \$0.08 per kilowatt-hour for the first year of electricity savings plus \$300 per average peak kW saved, up to 75% of the incremental custom cost Pump assessment: Up to \$500 per pump, with a max of \$3,000 Compressed air system leak assessment: Up to \$25 per hp, with a maximum of \$1,500 Preliminary assessment: 100% funded up to \$3,000 Technical assessment: 50% of the preapproved cost, up to \$15,000; 100% (up to a maximum of \$30,000) if suggested improvements are made	
WHEN TO APPLY	Retrofits: Preapproval is required prior to purchasing, ordering or installing. New construction and end-of-useful life replacements: Post-purchase is allowed, but customers proceed at risk of not receiving a rebate.	
KEY BENEFITS	- Lower electric bills - Increased productivity and system reliability - Lower maintenance costs - Reduced annual operating expenses - Improved comfort in the workspace - In-depth system analysis for qualifying projects	

SRP BUSINESS SOLUTIONS

SRP is committed to helping you save energy and money. We offer a rebate or incentive program for every size and type of business.

- Standard Business
- Custom Business
- Small Business
- New Construction
- Retrocommissioning
- Electrification
- Business EV
- Multifamily
- Demand Response
