

## E Series Explosion-Proof Metering Pump

In workspaces where safety is critical, our E Series Explosion-Proof Pumps provide a shield of protection for your chemical processes. **With a proven 30 year design**, these pumps stand up to the challenge in environments where the standard safety measures just won't cut it.

### Key Features

- ✓ Robust, urethane-coated cast housing designed for hazardous environments and outdoor use
- ✓ Certified for Class I, Division I, Groups C and D as well as Class II, Division I, Groups E, F, and G
- ✓ Manual or external control options without costly explosion-proof motors
- ✓ UL and CUL certified

### Benefits

- ✓ Provides reliable performance in hazardous duty operations
- ✓ Ensures safety in environments where standard measures are insufficient
- ✓ Flexible control options reduce system complexity
- ✓ Durable construction increases service life

### An Explosion-Proof Pump for Every Application

Our explosion-proof pumps are engineered for performance across a spectrum of industries. They are ideal for water treatment and wastewater management, adept at handling the precision required for chemical processing, and robust enough for the food and beverage sector. Additionally, they're well-suited for the demanding conditions in oil and gas, general industry, power generation, pulp and paper manufacturing, textiles, and more.

Designed to cater to a range of flow rates from 1.3 to 20 gallons per hour (GPH) and system pressures up to 300 pounds per square inch (PSI), our explosion-proof pumps integrate smoothly into your existing operations. They're built to support a variety of application requirements and are particularly effective at transporting viscous fluids.
